

We want you to view
healthcare differently.

3fivetwoTM
HEALTHCARE

Peace of mind for you and your family.

In today's fast paced lifestyle it is important to recognise the value of good health for both you and your family. A health assessment can identify any health risks that may affect you, or your family, helping you to plan for the future and take positive action towards improving your overall health and wellbeing.

At 3fivetwo we offer you a wide choice of tailored health assessments. Our service is designed to be focused, flexible, professional and confidential and is based in our new state of the art Medical Imaging & Screening Centre, 6 Lisburn Rd, Belfast. At the heart of this centre is our 64 Slice CT scanner with one of the lowest radiation dose in Ireland, ensuring our health assessments are like no other in Northern Ireland.

Tailored Health Assessment Packages

These range from general bronze and silver options to our more comprehensive gold package and our signature platinum package.
