

Private Medicine & Surgery:

CHILD & ADOLESCENT PSYCHIATRY

3fivetwo[™]
HEALTHCARE

Child & Adolescent Psychiatry

At 3fivetwo, we want to provide a helping hand to parents and carers of children with special needs.

The mental and emotional health of children and young people can affect their later life. Good mental health is characterised by a person's ability to fulfil a number of key functions and activities including:

The ability to:

- Learn
- Feel, express and manage a range of emotions
- Form and maintain good relationships with others
- Cope and manage change and uncertainty

Our child psychiatry clinics are focused on helping you and your child deal with common and severe disorders such as hyperactivity, autism, conduct disorder, depression and learning difficulties.

Our consultants have a wide range of knowledge and expertise and are committed to providing effective assessment, treatment and support for both you and your child.

For further information or to arrange an appointment, call our Dedicated Private Patient Line:
