

Private Medicine & Surgery:

PAIN MANAGEMENT

3fivetwoTM
HEALTHCARE

3fivetwo are here to help when your lifestyle is compromised by chronic pain.

Pain management generally benefits from a multidisciplinary approach that includes pharmacological measures, non-pharmacological measures (such as interventional procedures & physical therapy) and psychological measures (such as cognitive therapy).

The 3fivetwo Pain Management service can include:

- Review of previous treatment
- Physical examination
- Evaluation of pain condition
- Ultrasound scan
- CT scanning
- Steroid injection
- Development of a comprehensive, individualised treatment management plan

The 3fivetwo Pain Management service specialises in interventional techniques in the management of:

- Back pain–epidural steroid injections, facet joint injections, neurolytic blocks, pulsed radiofrequency
- Muscular / myofascial pain / fibromyalgia
- Joint pain - large and small joint steroid injections
- Sciatica
- Facial pain
- Neuropathic pain
